

Climb St. Rumbold's Tower: there is no better way to discover the city than with your head in the clouds. St. Rumbold's Tower offers an all-in-one unique experience. The skywalk around this 97-metre tall tower and the climb up to it are simply amazing.

Check the visitor's guide to take a ramble through the incredible history of St. Rumbold's Tower, with plenty of interesting facts and loads of fun activities for children. You may even run into the tower guard or the city carillonneur as you make your way up or down the stairs.

Thanks to an AR application, a Burgundian spectacle from 1516 comes to life before your eyes. On the skywalk, two virtual reality viewers will teach you more about various Burgundian palaces, city oases and monuments that you can spot from the roof of St Rumbold's Tower. For various reasons, not everyone can visit St Rumbold's Tower. Curious what you're missing? Ask at the tower desk for a tablet on which to view the AR and VR experiences.
