

Cookies EN

This website uses cookies. By using this website you agree to the placement of cookies on your computer. [Hide / More information](#)

This website uses cookies. A cookie is a small text-only file that a website transfers to the cookie file of your browser on your computer's hard disk. The information stored in this file can be sent back to our servers when you revisit our website.

A cookie of the American company Google is sent from our website and stored on your hard disk, as part of the "Analytics" service. We use this service to track how visitors use the website and compile reports on website activity. Google may also disclose this information to third parties if Google is legally required to do so or if third parties process this information on Google's behalf. We have no influence on this process. We have granted Google permission to use the obtained analytics information for other Google services.

The information that Google collects is anonymised as far as possible. More specifically your IP address is masked. The information is transferred and stored by Google on servers in the United States. Google certifies that it adheres to the Safe Harbor principles and is affiliated with the Safe Harbor programme of the US Department of Commerce. This means that it has an adequate level of protection for the processing of any personal data.

Our website features buttons for promoting ("like") or sharing ("tweet") webpages on social networks such as Facebook and Twitter. These buttons use snippets of code from Facebook and Twitter respectively. This code places cookies on your computer's hard disk. We have no influence on this. Kindly refer to the privacy statement of either Facebook or Twitter (which may regularly change) to find out what they do with your (personal) data, which they process through these cookies.

The information they collect is anonymised as far as possible. The information is transferred and stored by Twitter, Facebook and Google+ on servers in the United States. Twitter, Facebook and Google+ have certified that they adhere to the Safe Harbor principles and are affiliated with the Safe Harbor programme of the US Department of Commerce. This means that they have an adequate level of protection for the processing of any personal data.

Enabling and disabling cookies and deleting cookies

You can find further information on enabling and disabling and deleting cookies in the instructions and / or in your browser's Help function.
